SOLAR PANEL SALES PROJECT

1.0 DATA LOADING & VALIDATION

- Excel / CSV Data Import
- Power BI Integration
- Initial Integrity Checks

2.0 DATA CLEANING & TRANSFORMATION

- Remove Duplicates & Nulls
- Standardize Date/Currency Formats
- Copilot AI Assistance

3.0 ANALYSIS & AI PROCESSING

- Advanced Pivot Tables
- Copilot Trend Prompts
- Regional Performance Comparison

4.0 VISUALIZATION & REPORT GENERATION

- Interactive Dashboards
- Dynamic KPI Charts
- Automated Executive Reports

Copilot

Summarize solar panel sales by panel type and highlight seasonal peaks.

Generate

Copilot

Here's a summary of solar panel sales by panel type:

- Monocrystalline panels lead with the highest sales, especially in the summer months.
- Polycrystalline panels have steady sales, peaking in the spring.
- Thin-Film panels show lower sales, with a minor peak in fall 2025.

Overall, sales increase significantly in the summer and drop during the winter months.
